ThinkSystem Enterprise Storage Array Portfolio

Efficient, secure solutions to maximize performance and value for AI and data intensive workloads

SAN

Lenovo ThinkSystem DE Series

- Entry to the high-performance block
- Flash and hybrid models
- Easy to configure, manage, and scale

Lenovo ThinkSystem DS Series

- Full-featured, all-flash SAN-optimized systems
- Symmetric active-active architecture for improved uptime and availability
- Integrated ransomware protection

Unified Storage

Lenovo ThinkSystem DG Series

- Unified file/block/object
- All-Flash at HDD economics
- Integrated ransomware protection

Lenovo ThinkSystem DM Series

- Unified file/block/object
- Flash and hybrid models to optimize performance and scale
- Integrated ransomware protection

Top Choice – journey to simplification

**TC
Stock**

TCS

Selected **fix configurations** that can be enhanced with additional options. Portfolio updated every quarter!
Made for online, volume and off the shelf sales!

**TC
Express**

TCE

Selected **components** for flexible configurations shipped in 10 days. Portfolio updated in real-time!
Made for predictable sales with fast delivery and cost efficiency!

**TC
Ready2Go**

TCR

Selected **solutions** for complex projects that require more than a server or controller. Built on TCE components, fully flexible, and equipped with complete enablement materials for sellers!
